

# Operation Future Graduation

**Sterling Fowler**  
**Future High School Graduate**  
**Class of 2018**

In one smart but simple effort to help reduce the excessive number of high school dropouts in our community, the *S.O.S. Ambassador for Youth*, Jesse Jordan, has initiated “Operation Future Graduation.” Utilizing enthusiastic volunteers as facilitators of great conversation about the endless positive aspects of the high school experience, we will encourage young participants to consider High School Graduation as their best and only choice.

After 30 minutes of fantastic conversation, the children will be adorned with a cap and gown, a mortar board with tassel, and announced as a ‘future graduate’ of High School. A ‘future graduation’ diploma will be presented to each youth with the pomp and circumstances of a graduation ceremony. ‘Future Graduation’ photographs will be taken of each individual. Afterwards, a 24” X 36” poster of the photo will be presented to each participating graduate to display on their wall, commemorating his/her commitment to graduate from high school. As a youth-serving agency, this program is one of *S.O.S. Health Care Inc.*’s many efforts to address the needs of our community.
